

KUALA LUMPUR, 9TH OF MAY OF 2013

Are you interested in participatory urbanism? Are you passionate about improving shared public spaces? Do you believe creativity and collaboration can contribute to a better neighbourhood and city?

Wearing the colours of George Town Festival, #BetterCities launches its first project in Penang: **Urban Residency (UrRe)**. UrRe is a weeklong urban action workshop that will take place between 10 - 16 June 2013 in George Town, Penang. Selected participants will design and build projects to transform overlooked public space into a more vibrant, responsive and liveable place.

Team #BetterCities has worked closely with local institutions and groups to devise a design challenge, which will be disclosed on the first day of the workshop. In the course of one week, participants will be presented with a context-specific challenge, a fixed schedule and budget to present the community with a solution. Selected participants will have room and board covered, a shared work space, as well as a budget for materials (travels to George Town, Penang not included). Participants are expected to arrive in George Town on 9 June 2013.

#BetterCities invites architects, designers and installation artists to apply. Fill out this [form](#), and send it, together with your [portfolio](#) and [resumé](#) to hello@betterciti.es by **27 May 2013.**
